

Piedmont 10943 Staff Impression

Piedmont stands 6'0" tall with a muscular build and medium bone structure; his broad shoulders and visibly toned arms are thanks to years of weightlifting, running, and competitive sports. His face is round, with a strong, well-defined jawline fully framed by a thick, neatly groomed dark-brown beard and mustache that outlines full lips. His eyes are a warm blend of brown and green, beneath straight, moderately thick dark eyebrows. A small, rounded nose gives him a cute, boyish charm, and his short, tightly curled dark-brown hair frames his face with a playful, slightly tousled finish. His olive-toned skin is smooth and even with warm undertones.

Growing up primarily with his mother in a single-parent home built resilience and loyalty in Piedmont. His personality is playful yet intensely focused, funny, and refreshingly blunt. His mechanical talent began as a curious child who loved taking things apart to see how they worked. He excelled in team sports such as hockey and baseball, embraced the individual challenge of surfing, and continues to enjoy basketball and weightlifting, while carving out creative time for poetry writing. Piedmont offers this warm message to future recipients: "Life is beautiful, and I'm happy to share it with you."
