

Alfie has big brown/green eyes, handsome thick, curly brown hair, a long oval face, and a barely-detectable cleft chin. He has a small to medium build, with lean muscles and a slender torso. He is always very polished and well-dressed, and we love his thick-rimmed black glasses!

Alfie is extremely intelligent; he has a PhD in Geology and is currently self-employed as a Geological consultant, assisting large and small organizations with the science of tectonic plate shifting and the threat and impact of earthquakes, as well as earthquake preparedness. His hobbies include drawing, writing, cooking, and building things, so he is also very creative and artistically inclined. He's admittedly not a big fan of organized sports, but is an avid cyclist, and also enjoys kayaking and whitewater rafting around the PNW. If you are looking for someone who is brilliant, career-oriented, and cultured, Alfie would be a great choice for you!
