

Open Donor: Arden

Staff Impression

Arden is average height and has a very broad, stocky and muscular build. Fitness and nutrition are incredibly important to Arden and he lives a lifestyle of healthy eating and daily visits to the gym. He also participates in competitive weight lifting. He has a clean-cut look and keeps his blonde hair short and his face clean shaven. Arden has light blue eyes and full pink lips that reveal straight, white teeth when he smiles.

We always know when Arden is at the office because his loud, boisterous voice can be heard from any room in the building. He has a very outgoing, humorous, and straight forward personality. Arden talks at length with the staff every time he visits, and always makes us laugh. He is currently studying Fitness and Nutrition in college and will pursue a professional career in that field when he graduates. He is currently using his knowledge to be a personal trainer and coach. He is dedicated and disciplined, traits he gained from serving in the United States Navy. Arden is a great guy and we truly enjoy having him in the program.
