

Open Donor: Irving

Staff Impression

Irving is tall and has a lean build, which he maintains with regular cardiovascular activities and weight training. He has a smooth and fair complexion with freckles across his nose and cheek bones. Irving has dark brown hair that is kept cut short yet stylish and large, round brown eyes that really stand out against his fair complexion. Irving has a shy smile with pink lips that display straight white teeth when he smiles wide.

Irving is soft spoken and a little shy at first, but once he begins feeling comfortable with you he and he opens up, his sweet, kind and good-natured personality really comes through. Irving is light hearted and has a great sense of humor as well. He is also very academically inclined, pursuing a degree in Global Politics and Finance. He takes his studies very seriously and hopes to one day pursue businesses abroad. Irving enjoys traveling the world as well. He has family in many countries and has enjoyed spending time with them and immersing himself in a variety of cultures. Irving is a great addition the donor program and we believe he has a very bright future ahead of him.
