

## Bai Staff Impression

Bai has very handsome bone structure with a square face, well-defined jaw, and proportionate, symmetrical, facial features. He has a clear complexion, full lips, and a gentle smile. His kind face matches his cheerful and sweet personality.

Bai is an outgoing donor who is kindhearted, patient, and open-minded. As an immigrant, a world traveler, a student, a college teacher, and a U.S. Army specialist, Bai has had many experiences which have provided “different ways of thinking and multiple perspectives to look at people and things.” He is very proud of his achievements that he accomplished with his hard work and determination. Bai was motivated to become a donor because he saw it as an opportunity and honor to be able to help others have children.
