

Mendel Staff Impression

Mendel is slender and athletic. He stays in shape by doing taekwondo, playing badminton, and running. He has a light olive skin tone and rich chestnut brown hair. His face is rectangular with angular features, a square jawline, large eyes, and dimples that are prominent when he smiles.

Mendel is even tempered, has a quick wit, and is quite easy to get along with. He is bilingual and has a lot of aptitude for math and science. Community involvement and volunteer work are very important to Mendel, who is an altruistic person and enjoys using his free time to help others. He has a multicultural background and is interested in learning other languages and about other cultures and their customs. Although he comes across as quiet, he is a people person at heart.
