Donor Essay

Why do you want to be a donor?

The money helps, I also think it's a smart and helpful thing to do.

Describe your relationship with your family. How has your family shaped your values and who you are today?

I am the youngest in my family, so I've been shaped greatly by my brother and sister. They have been very supportive. We are not a super close family because we live in separate areas, but we are still always in contact.

What makes you unique?

I think what makes me unique is that I enjoy being alone and doing things myself.

What are you most proud of and why?

I am most proud of my abilities to handle tough situations and make the right choices.

Handwritten message

If you could pass on a message to the recipient(s) of your semen, what would that message be?

My message would be that I am
super proud to be chosen as your donor
and that you have made a great choice.
The genetics that I was lucky enough
to receive from my parents have been a
blessing. I would like to say that I am
extremely athletic and have succeeded in
almost all aspects of sports. I was also
lucky enough to be given a very attractive
set of genetics. I've been told I have
a very nice bone structure as well
as many other bodily features. But besides
my outer features I am a very smart
and caring individual who has a deep
love for life. I hope that everything
goes well and once again I am very
happy to be chosen.
