In Your Own Words...

What did you do immediately after high school?

I moved out of state to attend college.

Which words describe your personality and character?

Outgoing, unique, artistic, worldly, athletic, kind, optimistic. I enjoy exploring, and love a good adventure. I tend to get along with everybody, and I don't have any enemies. I am a natural leader and typically take control of situations in a group setting.

Which sports do you like to participate in?

Soccer

Which sports did you play as a child?

Soccer, baseball, basketball

Which sports do you enjoy watching?

Soccer, baseball, football

Do you play any musical instruments?

Guitar, piano, drums, computer software

What is your most memorable childhood experience?

My most memorable childhood experience is making forts in my backyard with my brother and friends. We would wander the neighborhood and look for wood planks, scrap metal, and any other junk that we could transform into a fort.

To which countries have you traveled?

Mexico, Germany, France, Switzerland, Luxembourg, Netherlands, Greece, Italy, England

Describe one of your favorite vacations to another country:

One of my favorite vacations to another country was spent exploring the cities in the Netherlands. I love the Netherlands because I have a lot of family who live there. I go there about once a year and enjoy it more and more each time. I love the culture as everyone is incredibly welcoming and kind. Additionally, the food is great. I find myself making Dutch meals for myself even here at home. Soccer is massive in the Netherlands, and I love to attend the games with my friends and family.

Describe things you like the most about your own country:

Freedom, opportunity, and kindness. I feel that most people take our privileges in the US for granted. There are dozens of countries where freedom is quite limited, and opportunity is rare.

Describe a few of your strong sides:

I'm a loyal person. Growing up, my idol was Steven Gerrard, the former captain of the England national soccer team. He was also the captain for his club team, Liverpool FC and was the epitome of loyalty. Despite many enticing offers from other clubs, he remained at Liverpool and led the team that he loved. I've always admired that loyalty and have implemented it into my own life. I am also a natural leader. In group situations, I tend to take control and plan things/ give instruction at my own accord.

Describe a few of your weak sides:

I can be shy at times if I am uncomfortable, overanalyze things, and can get in pessimistic ruts. I have different interests from the average person so it can be hard to get along with most people on a deeper, personal level.

Donor Essay

Why do you want to be a donor?

I want to give others the opportunity to start a family. I can imagine it would be devastating to lack that ability and I would like to help others who lack it.

Describe your relationship with your family. How has your family shaped your values and who you are today?

My parents raised me well and taught me the importance of respect, kindness, sincerity and learning. My childhood had an adequate number of boundaries, but my parents also gave me the opportunity to explore and figure things out on my own. Growing up, my parents would be quite sad if they learned I had been unkind to others. My older brother is one of the nicest people I know and he taught me how to treat others properly. My parents also taught me the importance of learning and education; they would always be thrilled when I brought home a report card full of good grades.

What makes you unique?

I am interested in the arts, which seems to be rarity among people my age. I love playing music and have a deep appreciation for each genre. I have attended several classical music concerts on my own time, and hope to be a classical musician one day. I try to be well rounded, and explore as much of life as there is without shutting any doors.

What are you most proud of and why?

I'm proud of my scholastic accomplishments throughout high school and college. I am also proud of the friendships and connections I have made with others, as they prove to be quite valuable to my life. However, I rarely spend time thinking about my past accomplishments. I place all of my energy in the future and how I can improve myself in each aspect of life. I'm proud of the friendships I have made and my will to make a favorable future for myself.

Handwritten message

If you could pass on a message to the recipient(s) of your semen, what would that message be?

Dear future family starter(s),

The fact that I am helping you start a family brings me a great deal of joy. I hope that parenthood will be a great adventure with many moments of learning, happiness, and beauty. While your child may be a handful as a baby and a rebellious teenager like I was, he/she will eventually grow up to make you proud.
