

Seattle Sperm Bank

We continue to offer the industry's best value on high quality, Open ID vials, with personalized customer service and extended genetic screening.

Here is a list of why we think Seattle Sperm Bank is a great option:

- **Price** – Compared to our largest competitors, we can save patients 25%-50% per shipment. We offer the simplest and most transparent pricing structure in the industry. Our \$50 All-Access Pass, low vial prices, low shipping costs, and lack of add-on fees work together to make this entire process more affordable.
- **Dedicated Patient Navigators** – We offer a personalized customer service experience and operate on a first-name basis with our moms-to-be. This includes free photo matching, free personalized assistance with donor selection, and free genetic consultations. We know our donors! Every patient has the opportunity to speak with a SSB team member who interacts with the donor on a regular basis.
- **Open ID Donors** – We specialize in Open ID Donors, meaning that the donor has agreed to at least one form of contact with any donation-born offspring once the child turns 18. As the fastest growing trend among sperm banks due to the transparency and comfort it provides, we feel that it's an important option for our clients and families.
- **Advanced Genetic Testing** – SSB was the first sperm bank to offer extended genetic screening, and we have continued to lead the way in genetically screening our donors. As of January 2018, we have extended our current testing to Counsyl Foresight™ Carrier Screen, which includes testing for 175 conditions. Our website has an advanced search tool where carrier screening results can be used for filtering our available donors.
- **Donor Counseling** – We are the only sperm bank to have all donors counseled by a Master of Social Work. This consultation helps donor applicants understand the full implications of being a donor and the possibility of future contact with offspring.
- **Criminal Background Checks and Donor Records Verification** – Since day one, we have used a third-party criminal background check company to research all donor applicants. We also verify their educational transcripts.
- **Family Limit** – We limit our donors to creating 25 families in the U.S., and we adhere to country-specific requirements for donors who get distributed internationally.
- **Accreditations** – We are accredited and/or licensed by the following: FDA, CLIA, New York State, State of Maryland, and the State of California.

Visit www.SeattleSpermBank.com to start your donor search by purchasing a \$50 All-Access pass. If you would like to take advantage of our free photo-matching & consultations, please don't hesitate to contact us at cs@seattlespermbank.com or by calling 206.588.1484.
