

How to Choose a Sperm Donor

Offering the highest quality sperm donors with the most comprehensive screening and testing

From Profiles to Pregnancy A Guide to Purchasing

Boston IVF patients receive Free Shipping from Seattle Sperm Bank donors with the purchase and shipment of 2+vials.

Here is a generalized overview of what the process of purchasing donor sperm will entail:

- **Select A Donor:** Begin your search by visiting seattlespermbank.com. Take advantage of the advanced search tools to browse available donors and filter for selective traits. Purchase an All-Access Pass to dive deeper into the extended donor profiles and learn more about each donor.
- **Place An Order:** Before placing an order, be sure to share your preferred donor with your BIVF care team for approval and signoff. Once approved, orders can be placed directly on the website or by calling SSB's trained staff members at **206.588.1484**.
- **Complete Required Paperwork:** Before shipping vials, all forms related to the purchase must be completed. Forms can be found in your All-Access Pass login account.
- **Schedule Shipment of Vials:** Schedule your shipment by selecting the date of your choice and provide the shipping address for the Boston IVF location of treatment. *Shipments of 2+ vials will automatically receive **Free Shipping** at checkout.

- ✓ Hand Written Message
- ✓ Extended Profile
- ✓ *Upgrade \$49 for Adult Photos

Our Donors

Our mission is to practice the highest quality standards in recruiting, processing, and distributing donor sperm.

All of our qualified donors undergo rigorous testing that meets or exceeds FDA and state regulations. These donor candidates undergo extended genetic screening – testing for up to 514 genetic conditions including cystic fibrosis, spinal muscular atrophy, and male karyotyping. SSB has licensed genetic counselors on staff to answer any questions related to a donor's genetic test results. Our staff will work diligently to pair every patient with a donor solution which will match their individualized needs.

Personalized Client Services

At Seattle Sperm Bank, we are here to guide you throughout the donor selection journey, from beginning to end.

If you're having difficulty narrowing down options or finding the ideal donor to match your family-building needs, our dedicated Client Services team is available to offer personalized assistance whenever you need it. Additionally, all Boston IVF patients can access complimentary photo-matching services and donor consultations at no cost.

Open Identity Donors

SSB exclusively offers Open ID donors – all donors have completed donor counseling and agreed to at least one form of contact with any donor conceived child once they turn 18. The donor conceived child must initiate the contact, as parent and child identities are confidential and never released to the sperm donor. This meaningful option will be available to any SSB donor conceived child, regardless of which donor is selected.

Donor Availability

Although we offer a wide range of quality donors, our inventory is ever-changing and sometimes in short supply. We cannot guarantee a preferred donor's vials will be available indefinitely or at a moment's notice. For this reason, we recommend individuals and couples plan ahead and purchase extra samples to reserve for future use.

To schedule a free donor consultation, contact SSB at **206.588.1484**.

Founded in 1986, Boston IVF is one of the nation's pioneering fertility clinics. Through a growing network of centers and clinical partnerships in New England and beyond, Boston IVF provides thousands of parents-to-be with unparalleled access to modern fertility care and technology to help them grow their families.

Seattle Sperm Bank was established to provide families and individuals with exemplary donor choices. We realize that donor sperm is of extreme importance to our clients, and so our screening goes far beyond a simple sperm analysis. We select our donors very carefully and use highly-developed specimen handling and screening techniques to ensure you get a product of the highest quality.
